Products for the Mercedes-Benz CLK63 AMG Black Series (W209)

Includes: CLK63 AMG Black Series (CLK63 AMG Coupe/Cabrio where applicable)

ENGINE PERFORMANCE

evo1 ECU Upgrade

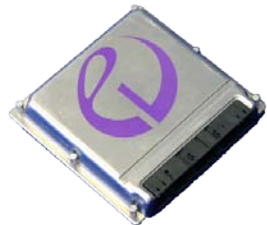

\$1,990

Application: CLK63 BS
Part #: EVO.PER.M09.63BS.EC1

Install Time (est.): 1.0 h
More info: [Click](#)

Evo1 ECU programming; remove top speed limiter, improved throttle response and ignition timing. Available for 93 or 91 octane.

Power Gains¹: Up to +30HP/41 FT-LBS.

evo2 ECU Upgrade

\$2,990

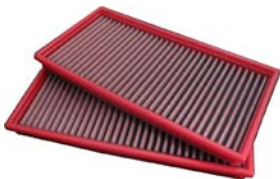

Application: CLK63 BS
Part #: EVO.PER.M09.63BS.EC2

Install Time (est.): 1.0 h
More info: [Click](#)

ECU programming; removes top speed limiter (Vmax), improved throttle response and ignition timing. **Optimized for use with evosport long-tube headers and exhaust system.**

Turns off rear O2 sensors for no Check Engine Light (CEL). Available for 93 or 91 octane.

Power Gains¹: See header reference below.

Performance Air Filters

\$200/pair

Application: All 63 AMG
Part #: EVO.PER.M63.AF1

Install Time (est.): 1.0 h

Replace the restrictive stock paper element air filter with these cotton gauze performance filters that allow much more airflow through while filtering harmful particles. Allows the vehicle greater breathability especially helpful on modified cars.

evo 63 Intake Upgrade

\$1,499

Application: All 63 AMG
Part #: EVO.PER.M63.IM2

Install Time (est.): 1.0 h
More info: [Click](#)

We modify the restrictive stock air boxes to allow the engine to breathe better on the intake side. Includes evo modified lower intake system, enlarged upper airbox inlets and performance air filters.

Power Gains¹: Up to +20HP **Note:** Air box core exchange required.

Performance Carbon Airbox

\$2,199

Application: All 63 AMG
Part #: EVO.PER.M63.CAB

Install Time (est.): 1.0 h

Complete Carbon Fiber replacement airbox includes larger airboxes, matching engine cover and performance air filters. Plenum volume substantially increased over stock.

Power Gains¹: Up to +15-18HP

Effective 9/15/09

Pricing subject to change and does not include installation. Please call for current info. Not responsible for errors in print.

Products for the Mercedes-Benz CLK63 AMG Black Series (W209)

Includes: CLK63 AMG Black Series (CLK63 AMG Coupe/Cabrio where applicable)

ENGINE PERFORMANCE (cont'd)

evo Power Pulley System

\$998

Application: All 63 AMG
Part #: EVO.PER.M63.P01

Install Time (est.): 3.0 h
More info: [Click](#)

Uses continuously variable active damping technology. High grade T-6061 black anodized aluminum pulley; hardened steel hub. Dramatically reduces rotating mass.

Power Gains¹: +15-20 HP/13 FT-LBS.

evo Phenolic Heat Spacer Kit

\$349/set

Application: All 63 AMG
Part #: EVO.PER.M63.PS1

Install Time (est.): 2.0 h

Specially designed phenolic intake manifold spacers help reduce intake temperatures by as much as 100°F. Ideal upgrade for high horsepower and modified cars where heat is your enemy. Includes replacement factory manifold gaskets.

EXHAUST

evo Performance Race Headers

\$7,995

Application: All CLK63 AMG
Part #: EVO.EXH.M09.H02

Install Time (est.): 16.0 h

High performance race-type header system features long-tube tri-Y design, TIG-welded mandrel bent T304 stainless steel with larger primaries. Modification to factory exhaust required.

Required: **evosport** evo2 ECU Upgrade. Recommended: **evosport** CLK63 BS exhaust system.
*For off-road use only; eliminates catalytic converters.

Power Gains¹: +65-75 HP/+60-70 ft.lbs of torque with Evosport exhaust & evo2 ECU upgrade

evo Race Exhaust System

\$4,000

Application: CLK63 BS
Part #: EVO.EXH.M09.63BS

Install Time (est.): N/A

Designed to mate with the **evosport** race headers. Features enlarged 3" modular design (versus stock 2.75"). Mandrel bent TIG-welded stainless steel construction. System includes performance X-pipe and hi-flow resonators. Some cutting & welding required. Does not include replacement of stock AMG mufflers. Quieter system also available upon request.

Power Gains¹: See header reference above.

More exhaust options are available. Please call for information.

Products for the Mercedes-Benz CLK63 AMG Black Series (W209)

Includes: CLK63 AMG Black Series (CLK63 AMG Coupe/Cabrio where applicable)

BRAKES

evo Performance Brake Discs

\$990/pair

Application: CLK63 BS, CLK63 AMG
Part #: EVO.BRK.M09.R01

Install Time (est.): 3.0 h

Rear multi-piece lightweight rotors (14-lbs. unsprung weight savings) replaces heavier factory one-piece solid rear rotors and matches factory multi-piece fronts. Drilled/slotted (13.0"/330mm x 26mm). Direct replacement for factory rotors; no modification necessary. For use with OE AMG calipers only. Brake pad replacement recommended during this install.

Gains: Lighter, multi-piece floating discs allow for better heat dissipation to mitigate brake fade. Reduction of 14-lbs of unsprung weight. Further aids in producing better acceleration, shorter stopping distances and improved cornering ability.

High Performance Brake Pads, Front

\$489/set

Application: CLK63 BS
Part #: PTF.BRK.M09.R4S.FR

Install Time (est.): 1.0 h

High performance street/track brake pad. Higher operating temperature over stock, for less brake fade, better bite and brake modulation. Sold in pairs.

High Performance Brake Pads, Rear

\$169/set

Application: CLK63 BS, CLK63 AMG
Part #: PTF.BRK.984.R4S

Install Time (est.): 1.0 h

High performance street/track brake pad. Higher operating temperature over stock, for less brake fade, better bite and brake modulation. Sold in pairs.

Stainless Steel Brake Lines

\$299/set

Application: CLK63 BS
Part #: EVO.BRK.M09.63B.LNS

Install Time (est.): 2.0 h

Teflon-coated stainless steel brake lines for factory brake system. Includes front and rear lines.

Custom Painted Brake Calipers

\$350-\$500/axle

Application: All
Part #: -

Install Time (est.): 4.0 h

Custom painting of factory brake calipers. Your color choice. Custom logos available.

More brake options are available. Please call for information.

SUSPENSION/WHEELS

Track & Race Springs

\$370

Application: CLK63 BS
Part #: -

Install Time (est.): 7.0 h

We offer a number of spring options for the factory coilover system to suit your high performance street or track/race needs. Includes (4) coil springs and (2) spring tenders. Please call for more information.

Adjustable Rear Control Arms

\$TBD

Application: CLK63 BS
Part #: EVO.SUS.M09.63BS.RCA

Install Time (est.): TBD

Replace the heavy steel non-adjustable lower rear control arms with these lightweight billet aluminum adjustable arms that work great for dialing in more negative camber.

Camber Plates

\$TBD

Application: CLK63 BS
Part #: EVO.SUS.M09.63BS.CP

Install Time (est.): TBD

Adjustable camber plates for dialing in more negative camber to the front wheels.

Wheel TRAK+ Spacer Kit

\$280

Application: CLK63 BS
Part #: EVO.WHL.M63.BSK

Install Time (est.): 1.5

Increase the wheel track by pushing the front and rear wheels out towards the fenders. Creates a much more appealing look and provides increase in track width for better grip and cornering. Available in either 10mm (total 20mm gain per axle) or 12mm (total 24mm gain) for fronts and rears. Includes properly sized high quality lug bolts. Spacers are hubcentric.

NOTE: For use with stock wheel and tire setup ONLY. Please call us for other applications.

SAFETY

4-Point Rollbar

From \$2,995

Application: CLK63 BS
Part #: EVO.INT.M09.BAR

Install Time (est.): 16.0 h

4-Point bolt-in rollbar constructed of TIG-welded 4130 chromoly steel. Offers enhanced roll-over protection and adds sporty look to the vehicle. Includes standard color powder coating. Easily removable.

Note: Leather or Alcantara wrap available at additional cost.

AERODYNAMICS/EXTERIOR

Carbon Front Splitter (Vorsteiner)

\$3,895

Application: CLK63 BS
Part #: VST.EXT.M09.BSF

Install Time (est.): 4.0 h

Full carbon-fiber DTM-style front lower splitter for additional down force and stability at high speeds. Black carbon weave matches factory exterior carbon trim. Attaches directly to factory front bumper. Only 1/16" lower than stock bumper.

Recommended: Rear carbon decklid spoiler

Carbon Rear Decklid Spoiler (Vorsteiner)

\$1,995

Application: All W209 CLK
Part #: VST.EXT.M09.R01

Install Time (est.): 2.0 h

Full carbon-fiber rear trunk mounted spoiler offers more aggressive styling and increased downforce than factory spoiler. Black carbon weave matches factory exterior carbon trim. Attaches directly to trunk. No drilling required.

Recommended: Front lower carbon splitter

Dry Carbon Rear DTM Wing

\$4,499

Application: All W209 CLK
Part #: EVO.EXT.M09.DRW.001

Install Time (est.): 6.0 h

DTM wing assembly includes dry carbon wing, endplates and uprights. Weighs less than 3-lbs. Attaches directly to trunk. Includes clear coating (gloss or matte). Professional installation recommended. Fits coupe or cabriolet W209 CLK.

Recommended: Front lower carbon splitter

Pre-Painted Front Side-Marker Reflectors

\$149/pair

Application: CLK63 BS
Part #: EVO.LTG.M09.PL2.xxx

Install Time (est.): 0.25 h

Replace the factory US amber front bumper side-marker reflectors with these Euro-look pre-painted lenses. Gives the vehicle a much cleaner appearance. Painted using factory quality paint matching exact exterior color. Installs in a few minutes.

Available Colors: Black, Iridium Silver Metallic, Arctic White, Mars Red, Obsidian Black Metallic

INTERIOR

Carbon Fiber Interior

\$1,990

Application: CLK63 BS
Part #: EVO.INT.M09.001

Install Time (est.): 4.0 h

5-piece carbon fiber (black) trim replaces factory silver plastic trim pieces. Kit includes: glove box trim (1), window switch surround (2), door trim (2). Carbon weave matches that of stock carbon interior console. Gives the vehicle a much more complete look like it should have come from the factory.

Note: Sold on a core exchange basis only. \$300 refundable core charge applies.

DRIVETRAIN

Quaife Limited Slip Differential

\$1,789

Application: CLK63
Part #: QFE.DRV.MBZ.002

Install Time (est.): 11.0 h

Automatic Torque Biasing (ATB) Differential enables your car to accelerate quicker and corner faster by getting the power to the ground! The Quaife Differential powers both drive wheels under nearly all conditions, instead of just one. With the ordinary STOCK open differential, a lot of precious power is wasted during wheel spin under acceleration. This happens because the open differential shifts power to the wheel with less grip (along the path of least resistance). The Quaife, however, does just the opposite. It senses which wheel has the better grip, and biases the power to that wheel. It does this smoothly and constantly, and without ever completely removing power from the other wheel. Especially helpful for modified cars with high horsepower. Beneficial under acceleration, deceleration and for cornering exit speeds.

FOOTNOTES

(1) Power Ratings: Horsepower (HP) and torque ratings quoted by **evosport** are those derived from actual testing on a Dynojet 248 dynamometer in Huntington Beach CA. A 16%-18% drivetrain loss is typically assumed in calculating the difference between rear-wheel and crank HP and torque ratings for cars with automatic transmissions. A 15%-17% drivetrain loss is typically assumed in calculating the difference between rear-wheel and crank HP and torque ratings for cars with manual transmissions. Due to the potential for significant variables that can affect horsepower and torque ratings (e.g., baseline differences from car-to-car of the same make and model, differences in size and weight of wheels and tires, differences in testing dynamometers, differences in testing processes and/or conditions, etc.), quoted HP and torque ratings are approximates. **evosport** does not guarantee that purchased products will achieve advertised HP or torque ratings in customer-specific applications. Power numbers are based on CA 91 octane fuel.

Pricing subject to change and does not include installation. Please call for current info. Not responsible for errors in print.

PRODUCT USE

Many parts sold by **evosport** are intended for off-road use only and may not be legal for street use. **evosport** makes no representation with respect to the legality for street use of any parts sold or their ability to pass emissions tests in any State. Customer understands that it is his sole responsibility to determine applicability of local, State and Federal laws and compliance with them prior to using purchased parts on any vehicle driven on the street. EVOSPORT MAKES NO REPRESENTATION WHATSOEVER THAT INSTALLATION AND/OR USE OF PARTS PURCHASED FROM EVOSPORT WILL NOT HAVE A NEGATIVE EFFECT ON ANY WARRANTY THAT MAY EXIST ON CUSTOMER'S VEHICLE. CUSTOMER UNDERSTANDS THAT HE OR SHE ASSUMES ALL LIABILITY AND RISK ASSOCIATED WITH THE USE OF PRODUCTS SOLD BY EVOSPORT.
